## WORK EXPERIENCE

### Mindcraft Software Pvt Ltd

01/2020 - 01/2021

Andheri, Mumbai

- Experience of working on SQL, Java and Android based platforms like REST API's.
- Gained experience to effectively articulate technical challenges.
- Developed the working architecture of Reliance CRM App.

### Profound Courses

08/2019 - 12/2019

Borivali, Mumbai

- Learnt Coding skills in various platforms like C, Java, Dot Net, SQL and HTML for Web Designing. Developed 2 Website for a client using React JS and JavaScript.
- Internship for 3 months in the same organization.

## PROJECTS

### E - Bike

*Achievements / Tasks (Feb - 2017)*

- Developed a Project based on electricity concept that works on batteries and inverters rather than petrol and diesel.
- The advantage of this project is its non-polluting and even a Differently Abled Person can ride this.

### Smart Door Lock Device Using Arduino

*Achievements / Tasks (Mar - 2018)*

- Developed this project to increase the level of security by preventing the threat of robbery since the physical locks can be easily broken.
- This device can be opened using Smart Phone.

### Drone Control Using Hand Gesture

*Achievements / Tasks (Mar - 2019)*

- Developed this project to control a drone using hand gesture and to capture the images of a particular area, e.g - Spying.
- This device can be opened using through Smart Phone.
